

# MADDIE COATNEY

FULL STACK DEVELOPER (STUDENT)

Fort Worth, TX | maddiecoatney@gmail.com | 325-310-4766

Detail-oriented Web Development student with hands-on experience building responsive applications and working with backend technologies such as PHP, Python, and MySQL. Currently expanding skills in cloud computing, automation, and deployment workflows. Passionate about building scalable systems and developing efficient, reliable applications.

## KEY EXPERTISE AND CORE ACCOMPLISHMENTS

Responsive Development

Front-End Development

UI/UX Design

Server-Side Development

Accessibility Best Practices

API Integration and Data Handling

Content Management Systems

Project Management

- Developed a multi-page web application for Smoke Yard BBQ using HTML, CSS, and PHP, implementing Flexbox and CSS Grid to ensure responsive, scalable performance across devices
- Redesigned and modernized an existing retail website for Bankston's Comics (academic project), improving usability, optimizing layout structure, and enhancing overall performance
- Integrated real-time weather data into Summit Retreat Destinations using a public API, working with external data sources and dynamic content to create a more interactive and data-driven user experience
